ABSTRACT: The Uniform Guidelines provide fundamental guidance for all Title VII-covered employers about the use of employment selection procedures. The records addressed by UGESP are used by respondents to ensure that they are complying with Title VII and Executive Order 11246; by the Federal agencies that enforce Title VII and Executive Order 11246 to investigate, conciliate, and litigate charges of employment discrimination; and by complainants to establish violations of Federal equal employment opportunity laws. While there is no data available to quantify these benefits, the collection of accurate applicant flow data enhances each employer's ability to address any deficiencies in recruitment and selection processes, including detecting barriers to equal employment opportunity.

On February 22, 2018, the Commission published a 60-Day Notice informing the public of its intent to request an extension without change of the information collection requirements from the Office of Management and Budget. 83 FR 7720 (February 22, 2018). No comments were received.

BURDEN STATEMENT: There are no reporting requirements associated with UGESP. The burden being estimated is the cost of collecting and storing a job applicant's gender, race, and ethnicity data.

The only paperwork burden derives from this recordkeeping. Only employers covered under Title VII and Executive Order 11246 are subject to UGESP. For the purposes of burden calculation, employers with 15 or more employees are counted. The number of such employers is estimated at 961,709 which combines estimates from private employment,¹ the public sector,² colleges and universities,³ and referral unions.⁴

This burden assessment is based on an estimate of the number of job applications submitted to all Title VII-covered employers in one year, including paper-based and electronic applications. The total number of job applications submitted every year to covered employers is estimated to be 1,878,031,768, based on a National Organizations Survey⁵ average of approximately 35 applications⁶ for every hire and a Bureau of Labor Statistics data estimate of 62,719,000 annual hires.⁷ This figure also includes 146,506 applicants for union membership reported on the EEO-3 form for 2016.

The employer burden associated with collecting and storing applicant demographic data is based on the following assumptions: applicants would need to be asked to provide three pieces of information -- sex, race/ethnicity, and an identification number (a total of approximately 13 keystrokes); the employer would need to transfer information received to a database either manually or electronically; and the employer would need to store the 13 characters of information for each applicant. Recordkeeping costs and burden are assumed

The BLS figure (62,719,000) has been adjusted to only include hires by firms with 15 or more employees.

to be the time cost associated with entering 13 keystrokes.

Assuming that the required recordkeeping takes 30 seconds per record, and assuming a total of 1,878,031,768 paper and electronic applications per year (as calculated above), the resulting UGESP burden hours would be 7,825,132. Based on a wage rate of \$15.21 per hour for the individuals entering the data, the collection and storage of applicant demographic data would come to approximately \$119,020,258 per year for Title VII-covered employers. We expect that the foregoing assumptions are over-inclusive, because many employers have electronic job application processes that should be able to capture applicant flow data automatically.

However, the average burden per employer is relatively small. As stated above, we estimate that UGESP applies to 961,709 employers. Therefore, the cost per covered employer is less than \$124 each (\$119,020,258 divided by 961,709 is equal to \$123.76). Additionally, UGESP allows for simplified recordkeeping for employers with more than 15 but less than 100 employees.⁸

⁸ See 29 CFR 1607.15A(1): *Simplified recordkeeping for users with less than 100 employees*. In order to minimize recordkeeping burdens on employers who employ one hundred (100) or fewer employees, and other users not required to file EEO-1, *et seq.*, reports, such users may satisfy the requirements of this section 15 if they maintain and have available records showing, for each year: (a) The number of persons hired, promoted, and terminated for each job, by sex, and where appropriate by race and national origin; (b) The number of applicants for hire and promotion by sex and where appropriate by race and national origin; and (c) The selection procedures utilized (either standardized or not standardized).
